## PHONES FOR REFUGEES

**Help to Keep  
displaced people safe  
and connected**

The *Refugee Info Bus* is a new charity providing Wifi and information to refugees in Greece. We are collecting smartphones and laptops. The need for connectivity in this crisis is vital for information and safety. We began collecting and handing out smartphones in Calais refugee camp last year. The benefits were heart warming. Emotional connections as residents Skyped their families, some of which had spent a long time without communication. Help us to keep people connected.

### BEFORE DONATING PLEASE FOLLOW

**STEP BY STEP INSTRUCTIONS**
